

# GENERAL MAP OF ACTIVITIES

---

- |    |   |    |   |
|----|---|----|---|
| 1  | Comparison of the implementation of EU flood risk management directives in the LABEL regions                                | 28 | Political workshop "Flood protection – on a local and international level" and the Elbe conference  |
| 2  | Methodology of preliminary assessment of flood risks and definition of areas with high flood risk                           | 29 | Web application to present selected data on flood area  |
| 3  | Standardization minimum criteria for the creation of flood hazard and flood risk maps                                       | 30 | Regional Flood Protection Measures in the Usti region   |
| 4  | Coordination with the International Commission for the protection of the Elbe (ICPE)  | 31 | Water tourism in the Usti Region  |
| 5  | Testing the reporting to the EU in connection with the Flood Risk Management Directive                                      | 32 | Flood retention in the Czech Ore Mountains  |
| 6  | Effects of the Czech and German dams on Elbe floods   | 33 | Improvement of WBS FLAB (Knowledge-based system of areas with similar run-off generation) and comparison of the determination of flood formation areas in Saxony and Czech Republic |
| 7  | Elbe-Atlas II: Damage potential in the Elbe catchment   | 34 | Assessment of the Děčín lock  |
| 8  | Tourist and leisure guide "WasserKulturLandschaft Elbe" (WaterCultureLandscape Elbe)  | 35 | Project day with school children  |
| 9  | Municipal Flood partnership Labe-Elbe   | 36 | Involvement of municipalities in flood risk management  |
| 10 | Adaptation to climate change in the Elbe catchment  | 37 | Workshop on legal matters "Upstream and downstream riparians"   |
| 11 | Media competition on flood protection   | 38 | Further development of flood management system INGE   |
| 12 | Creation of documents for the mapping of flood risks and flood hazards in the Hradec Králové, Pardubice and Liberec regions | 39 | Pilot implementation of EU flood risk management directive for the White Elster   |
| 13 | Elbe tourism in the Hradec Králové region   | 40 | LABEL at the euregia  |
| 14 | Documentation on areas with high flood risk – pilot project in the town of Přepere  | 41 | Reconstruction of the course of the Elbe river from Schöna to Geesthacht in the first half of the 19th Century  |
| 15 | Risk Atlas Elbe – Creation of flood hazard maps and flood risk maps – Pilot project on the Jizera river                     | 42 | The river hydrological software FLYS, the water level information system of the BfG   |
| 16 | Mathematic model to simulate hydrological conditions in the Elbe catchment area   | 43 | Political workshop on water tourism   |
| 17 | Study of the retention areas in the Vltava river basin  | 44 | Influence of the flooding of lowlands of the river Havel on the flooding of the Elbe  |
| 18 | Flood risk and hazard maps for river mouth areas  | 45 | Risk prevention and water tourism   |
| 19 | Tourism at the European watershed between Danube and Elbe   | 46 | Analysis of navigability in Saxony-Anhalt   |
| 20 | Influence of changes in land use on floods and torrents in Austria  | 47 | Review of flood retention areas, evaluation of risk resulting from flood and pollutants and recommendations for adapted uses  |
| 21 | Regional study Orlik  | 48 | Cross and inter project exchange: The LABEL-SAWA Conference "Elbe without borders"  |
| 22 | Tourist traffic and flood protection in South Bohemia   | 49 | Study trip from the Tisza to the Elbe   |
| 23 | Analysis of the retention potential in the region of Pilsen   | 50 | LABEL mobile exhibition   |
| 24 | Water tourism in the Pilsen region  | 51 | Film and articles about LABEL on behalf of the EU Commission  |
| 25 | Concept of regional flood protection measures in Central Bohemia region   | 52 | Integrated regional concept „Lower Middle Elbe“   |
| 26 | Improvement of water tourism infrastructure in Central Bohemia  | 53 | Flood risk mapping at polders in the Hungarian Tisza catchment  |
| 27 | Significance of Elbe Navigation in Central Bohemia  |    |   |
