

*Invitation*

# *Elbe Conference*

*7<sup>th</sup> February 2012*

*Prague*

This project is implemented through the CENTRAL EUROPE Programme co-financed by the ERDF.

## *Elbe Conference – Prague - 7<sup>th</sup> February 2012*

Project LABEL – “**Adaptation to flood risk in the Elbe River basin**” – unites actors of four countries to develop jointly prevention measures and strategies to adapt to the rising flood risk. The approach is cross-sectoral: In LABEL the focus is on risk-adjusted regional land-use planning, tourism and shipping. The starting point in this context is co-operation in the field of water management.

The international Conference organized within the project Label will be focused on flood protection, water tourism, shipping and navigability, in particular to the results of projects processed under LABEL.
